Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Objections

1. Claims 1-5 are finally objected to because of the following informalities:

Claim 2: " an input" in line 5, "a summation circuit" in line 6, "a scaling circuit" in line 7, "a linearization circuit" in line 9, "the cable connection" in line 8, "the summer circuit" in line 8, "the ambient temperature sensor" in lines 7-8 lack antecedent basis.

Claim 3: perhaps applicant should replace "a second cable connection post is" in line 2 with –a second connection post is a cable connection post

Claims 2-5: "Claim" in line 1 should be replaced with –claim--, because only the first letter of the claim can be capitalized.

Claim 2: it appears that, as claim 1 being amended now, claim 2 is redundant to claim 1.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 3 is finally rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In this case,

Claim 3: the claim language is confusing because it is not clear if "a second cable connection post" is one of the "three connection posts" of claim 1. Furthermore, please note, that in the rejection on the merits, the examiner considers that "a second cable connection post" is one the "three connection posts" claimed in claim 1.

Allowable Subject Matter

4. Claims 2, 4-5 are objected. Claims 1, 6-9 are allowed. Claim 3 is rejected (see paragraph 3).

Information Disclosure Statement

5. The information disclosure statement filed on October 02, 2003 has been considered.

Response to Arguments

6. Applicant's arguments filed November 24, 2004 have been considered and found to be persuasive, however, applicant did not address claim objection and 112 rejection. Therefore, claim objection and 112 rejection from the previous Office Action herein remain.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 2859

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The prior art cited in the PTO-892 and not mentioned above disclose related devices and methods.

Any inquiry concerning this communication should be directed to the Examiner Verbitsky who can be reached at (571) 272-2253 Monday through Friday 8:00 to 4:00 ET.
